

Support of this bill means the world to myself and my family. A major source of our household income comes from the ability to rent our houses as short term rentals and long term rentals are not profitable. Please continue to allow short term rentals. Neighbors of our properties are pleased as the houses are much nicer and better maintained than they were before. It's improved the community. If we continue to have this ability, we may seek to improve more houses within our community.

Sincerely,
Noelle Pierce
