

If you open the opportunity to Rent unoccupied Bedrooms in Residential Areas in Akron, you would be giving to Owners, who still are paying their Mortgages and Seniors in Retirement Situation or promptly to be it, a great chance to get an Extra Income to fulfill such conditions.

Both of them are our Situation: We came to this Country almost Six years ago as Permanent Residents, Two years and a half later, via mortgage, we bought our house and we will be paying for it for the next 15 years ahead. A few months ago , we become American Citizens, so we are thinking to live in this Country for the rest of our lives and we want to live without being a burden for nobody, not even our family, not even the State or the County. Besides, we are working hard to get our retirement in the next five years and as you may know, the amount that we will be receiving won't be enough to live decently.

To be an AIRBNB Hostess is an excellent activity. It is assured for us, for the Neighbors and for the Community's because their Procedures to select, both, Guests and Hostess is strict, selective and severe and on the other hand the Tourism, the Commerce and another areas are also receiving benefits.

Sincerely,
Ramon Hernandez
