

I have been offering short term rentals for 11 years. I have never had a bad experience, and the income it generates has allowed us to invest in our property to make it better, safer and more up to date. I offer a very clean, well run place to stay. STR's are an excellent way for out of town guests to experience our community up close and on a personal level.

It has had a very positive impact on my ability to own my home....and more importantly improve it. I have made significant repairs to the home in the 11 years I have owned it. The home was abandoned for 2 years when I purchased it.

It has also served our visitors on a positive level, as I often host guests who are in town for treatment at the Cleveland Clinic, and university Hospitals.

My rental also allows me to pay my cleaning crews a very good wage (up to \$40.00 per hour) for their work on the mantaining and cleaning the house. This has assisted other local residents by supplementing their income.

I am willing to meet with lawmakers virtually.

Sincerely,

Robert Vayda
