

This law will not only be unconstitutional but will incite a revolution against anyone who tries to confiscate firearms under discriminatory criteria arbitrarily set by RINOs teaming up with communist democrats.

This law will NOT give Matt Dolan an edge against Sherrod Brown – especially when he couldn't even win a primary against JD Vance and coming in behind Josh Mandel.

Anyone voting for this law should be voted out of office, charged with treason and hung.

This law will only disarm law abiding citizens and weaken the populace for when China invades within 5 years.

May God have mercy on any crooked politician voting for this because the public won't.
