Experience

OFCC K-12 Project on State University Campus

Served as counsel for a recently consolidated school district for a \$42 million K-12 OFCC (state) co-funded project on the campus of a state university, with the local share bonds sold to the USDA.

Security of school bonds

Assisted an Ohio school district in the issuance of bonds in which the perceived security for the bonds was threatened by the financial woes of the county's largest employer and taxpayer. Our attorneys provided timely and critical information to the bond rating agency and investors regarding how oil and gas leases and mineral rights are valued for property tax purposes and the potential impact of a bankruptcy filing on the payment of property taxes for the bonds.

Bond counsel for community college district

Served as bond counsel on Ohio's first voted bond issue for a community college district.

Bond counsel with county intercept

Served as bond counsel on Public Library Fund-backed library notes with county intercept. Assisted with private use analysis related to community fundraising campaign.

School district/hospital collaboration

Drafted a unique school district-hospital agreement to provide educational opportunities to high school students.

Property tax and levy planning negotiation with outlet mall

Successfully negotiated payments to offset lost revenues to total \$1 million for a school district from an outlet mall developer over the taxation of a \$100 million mall. Worked with the school district to evaluate levy options given proposed development.
