

Thank you for taking the time to review my request. I strongly support SB 22; however, I do have a couple of requests to be considered. To ensure the views from the people are represented by all members of the house or senate I request the following changes be made.

- I would suggest that on or about line number 16 the following or similar phrase be added.
 - a. Remove speaker or president and insert, Appointed committee members shall be approved by their house or senate members.
- On or about line number 29 and 30 the following or similar phrase be added.
 - Remove by the speaker or the president and insert, by their chamber members.

I ask you vote yes with these recommended changes.

SB22 will permit will permit elected officials, such as yourself to intervene, as intended by our state and national constitution on our behalf. The restriction put on the citizens of Ohio these last 10 or so months shall never happen again without our elected officials' approval where the citizens can and will hold them accountable at the ballot box.

I thank you for your time.

Respectfully,
Samuel George
