

My name is Mark Distaulo. I'm writing to ask for all politicians to support SB22. Remember your there to follow the will of the people. Your job is to govern not rule. Enough is enough with all these draconian orders. The people of Ohio should be allowed to make there own decisions in regards to health. If people want to continue to wear masks, that should be their choice. The governor and health department are not our doctors. I don't need them to make health decisions for me. Anyone with 2 brain cells to rub together, know masks don't work. It's a control device. Ohio needs checks and balances. We're not a dictatorship as much as Dewine wants it to be. He needs to apologize to all of Ohio for what he has done. Destroyed business's and families. How many suicides happened because of the forced lockdowns? It's criminal what our officials have done.

Sincerely,  
Mark Distaulo
