

March 14, 2021

Chairman Brenner, Vice-Chair Blessing, Ranking Member Fedor, and members of the Senate Primary and Secondary Education Committee,

I have raised 3 children and I believe that financial literacy education is vitally important as a stand-alone semester class. It provides essential skills to our young people that will serve them through their lives. These are not skills that are easily learned on your own without causing much financial hardship to everyone. I hope you support Senate Bill 1 and support the OATFACS who provide this important education to our future generations.

Thank you,

Kathy Hartung
