(C) The total dollar value of contracts made under this section shall not exceed one billion dollars per fiscal year. The director may provide compensation for preparation of a responsive preliminary design concept to not more than two bidders who, after the successful bidder, submitted the next best bids. The director may establish policies or procedures necessary to determine the amount of compensation to be provided for each project and the method of evaluating the value of the preliminary design concept submitted, but in no instance may the compensation exceed the value of such concept.

(D)(1) Notwithstanding division (C) of this section, the director may award contracts under this section for a bridge project that spans the Ohio river for an amount not to exceed one billion five hundred million dollars. The project may include both of the following:

(b) The replacement, addition, improvement, or rehabilitation of roadways providing for ingress to and egress from the bridge or system of bridges over the Ohio river within this state and any adjoining state.

(2) If the amount of the contracts entered into under division (D)(1) of this section exceeds one billion five hundred million dollars, the director shall appear before the controlling board to request additional contracting authority beyond the one billion five hundred million dollar threshold. The controlling board may approve the request at its discretion.

(3) The director may provide compensation for preparation of a responsive preliminary design concept under division (D) of this section to not more than three bidders. The director may

establish policies or procedures necessary to determine the amount of compensation to be provided for the project and the method of evaluating the value of the preliminary design concept submitted, but in no instance may the compensation exceed the cost to develop such concept.
