SYNOPSIS 47

**Unsubscribed electricity** 48

**R.C. 4934.07** 49

Adds to the bill provisions for "unsubscribed electricity" 50  
to specify that (1) an electric distribution utility (EDU) with 51  
a community solar facility in its certified territory must 52  
allocate bill credits for all electricity generated by the 53  
facility and attributable to a subscription under the bill, (2) 54  
a community solar organization (CSO) may account for 55  
unsubscribed electricity on a monthly basis and accumulate bill 56  
credits for the unsubscribed electricity for up to 12 months 57  
after it was generated, and (3) bill credits for unsubscribed 58  
electricity must be allocated to future subscribers at the 59  
direction of the CSO. 60

Requires a CSO to furnish to the EDU an allocation for 61  
distribution of bill credits to subscribers for unsubscribed 62  
electricity. 63

Requires a CSO to forfeit to the EDU any bill credits for 64  
unsubscribed electricity that are not allocated as described 65  
above. 66

Removes the provisions requiring that an EDU with a  
community solar facility in its certified territory must (1)  
purchase all electricity generated by the facility that is  
attributable to a subscriber's bill credit and (2) purchase the  
unsubscribed electricity from the facility at the utility's  
wholesale energy cost as approved by the Public Utilities  
Commission.

**Subscription share of less than 100% of electric usage** 74

**R.C. 4934.11** 75

Removes from the bill, the provisions describing that a  
subscriber whose community solar subscription provides less than  
100% of the subscriber's monthly electric usage may shop for the  
remaining monthly electric usage under the competitive retail  
electric service law or receive the remaining monthly electric  
usage from an EDU's standard service offer.

**Definitions** 82

**R.C. 4934.01** 83

Deletes from the definition of "bill credit" the phrase  
"and allocated to a subscriber's monthly electric bill to offset  
any part of the subscriber's electric bill."

Changes the definition of "subscription," to "the right to  
obtain from a community solar organization an allocation of bill  
credits for electricity generated by a community solar  
facility."

Defines "unsubscribed electricity" as "any electricity  
generated by a community solar facility in kilowatt hours that  
is not attributable to a subscription."

**Conforming changes** 94

<b>R.C. 4934.11 and 4934.12</b>	95
Makes conforming changes to reflect the change to the	96
definition of "subscription" to replace references to	97
subscription shares with the phrase "obtain a subscription" in	98
R.C. 4934.11 and the phrase "obtain an allocation of bill	99
credits" in R.C. 4934.12.	100
<b>LSC technical amendment</b>	101
<b>R.C. 4934.08 (C)</b>	102
Corrects a cross reference.	103
