New grant program

The bill creates the Ohio Sports Commission Fund to be used by the Commission, including the Council, in performing its duties. In part, this includes the issuance of grants to public and private entities that fulfill the stated purpose of enhancing the quality of life in Ohio through the attraction, promotion, and development of national and international sports. The fund consists of money credited or transferred to it and grants, gifts, and contributions made directly to it. The bill does not include an appropriation.⁵

Existing Sports Event Grant Program

Under continuing law, the Department of Development provides grants to counties, municipalities, and local organizing committees that partner with site selection organizations for certain sport games.⁶ The bill requires the Council to assist counties, municipalities, and organizing committees in their negotiations and agreements with site selection organization, and with applying for grants under the existing program. The Council also then must assist the Department of Development with the evaluation and determination regarding grant applications.⁷
