Rep. Brett Hudson Hillyer and members of the House Civil Justice Committee:

I am asking you to vote NO on S.B 21 which seeks to modify the Initiative Process. Please do not put this resolution before the legislature for a vote.

I oppose the bill as written being so vague that it could, and probably would, be used by some public office holders the opportunity to utilize taxpayer funded legal defense from rightful prosecution such as office holders who choose to place themselves in similar position as Mr. Householder. This appears to be a thinly veiled effort to enable an unconscionable use of tax payer money which would enable and further embolden the kinds of behavior and illegal activity such as that exemplified by Mr. Householder.

Respectfully submitted,

Denis M. Osowski
