

Written testimony concerning HJR1 and SJR2

Witness: Alexandra Still

April 17, 2023

Statement:

I am opposed to the resolution and anything that makes it harder for voters to amend the Ohio Constitution.

Ohioans already have to comply with very challenging requirements that make the process much more difficult to get an issue on a ballot in Ohio than this process is in many other states. I do not believe that this proposed legislation is necessary by any measure. Further more, I believe that this legislation is proposed with the goal of further inhibit Ohioans from expressing their point of view. If legislators are serious about valuing each Ohioan's right to vote, they will not advance this legislation.

Thankyou
