

Chairwoman Abrams, Vice Chair Williams, and Members of the House Criminal Justice Committee, thank you for hearing my support testimony for H.B. 245.

Please support H.B. 245. Our children, the most vulnerable in our society, they should not have to risk being exposed to ADULT entertainment in family venues. Confusing (men dressing as women), highly sexualized behavior since it's conception, grooming, indoctrination and sexual desensitizing reserves to be in no place other than in ADULT venues. I can't believe this is even in question but we as adults have an obligation to protect children from further exposure to such venues and events. Children are innocent and innocence only exists for a short amount of time in life, it must be preserved and protected while they have it. Some R rated movies are not this sexualized and we do not permit children under 17 to watch such.

I urge the committee to vote YES on H.B 245.

Thank you for your time.

Sincerely,
Stephanie Foucher
Mother of three children
