Substitute House Bill 33
Interested Party Testimony
April 19, 2023
Ohio House Finance Committee
Rebecca Brown Asmo, Executive Director, Ohio Humanities

Chairman Edwards, Vice Chair LaRe, Ranking Member Sweeney, and members of the Finance Committee: thank you for the opportunity to submit written testimony regarding Substitute Ohio House Bill 33.

With the full support of the Ohio History Connection, we are requesting \$500,000 per fiscal year in GRF in the FY24-25 budget under the foregoing appropriation item 360508, State Historical Grants, to be allocated to the Ohio Humanities Council to increase the capacity of Ohio's under-served humanities and cultural organizations. 100% of this funding will go directly to support cultural and humanities organizations that serve the public throughout Ohio. Support from Ohio Humanities will provide a bridge that allows our partners to retain and grow staff to serve their audiences while planning for the future.

Ohio Humanities is a statewide organization that hosts programs and awards grants to support storytellers statewide, from museums to local historical societies to documentary filmmakers. As the state-based nonprofit partner of the National Endowment for the Humanities, we leverage Federal funding to support local communities in telling the stories of our shared human experience.

We have relationships with hundreds of cultural organizations, including local historical societies, museums, libraries, non-profits, and monuments. With 50 years of experience granting funds to humanities organizations, we provide the technical and in-kind support necessary for smaller organizations to achieve success in accessing funding and program implementation.

In 2021 and 2022, Ohio Humanities awarded \$3,155,134 in grants—the most in our organization's history—reaching 171 organizations in 55 counties and 1 in 10 Ohioans. Our grant funds also support programs that serve all 88 counties in Ohio with in-person and digital programming. \$1M of this funding was distributed to humanities organizations across the state thanks to a new partnership with the Ohio Legislature through the Coronavirus Aid, Relief, and Economic Security (CARES) Act.

thoughtfully engage with the world around them. They help us envision an Ohio where people's unique stories are heard, the past is linked to the present, and a better future is realized together.

Over the last two years, \$40M in general revenue funding and \$70M in state recovery funding was allocated to Ohio's thriving arts and entertainment sector. While these funds provided much-needed funding to arts organizations, other cultural organizations are unable to access these funds, including many of Ohio's local and regional historical societies, small museums, memorials, monuments, organizations that do not host performances, and other cultural assets.

Ohio Humanities is the only grantmaking organization in the state that solely funds humanities organizations and projects. Of the more than 1,300 museums and local historical societies that operate in Ohio, more than 500 were unable to access COVID-19 recovery funding to adequately support the losses that they faced during the pandemic and the operational pivots necessary to sustain operations in the future. Out of the 118 recovery grants we awarded in 2021, only 17 organizations also received state-allocated arts recovery funding.

Ohio is among the top-rated states in the nation when it comes to state government support of the arts, yet we are one of only 15 states that does not allocate grant funding to support the humanities.

Thank you for the opportunity to express Ohio Humanities' request to amend this legislation to better support Ohio's public humanities organizations and for your leadership across the state. We look forward to continuing to share our successes with you in the months to come.

Please do not hesitate to contact me with any questions.

Sincerely,

Rebecca Brown Asmo
Executive Director
