

Chairman Peterson

Re Support for The Second Amendment Preservation Act, House Bill 51

Dear Mr Peterson

As a Veteran, former law enforcement officer and concerned citizen I am submitting my request that you vote in favor of House Bill 51 and enact the Second Amendment Preservation act for the following reasons.

First our Founding Fathers were smart enough to know the dangers of a government being able to disarm the public. They knew that we should never face the power of king who can take away any right of citizen to defend themselves. It's an important Law that needs to be upheld

Second The states right to keep and arm the National Guard units is also dependent on the Second Amendment and Title 32 for their ability to protect the state Especially in time of emergency.

Respectfully submitted
