

I am here today to oppose SB92 and HB144. August elections are too costly with too low a voter turnout to reinstate them.

Roughly four months ago, House Bill 458 greatly restricted August elections among other things. Why the flip-flop? It doesn't speak well of Ohio leadership if politicians keep changing their minds in a short span of time at taxpayers expense. At an estimated cost of 20 million dollars, this August election by your own accounts is too

costly. Additionally, with a 10% voter turnout, it is definitely not worth it.

By this very action, it shows that citizen-led initiatives are more important than ever.

Please don't waste taxpayers money on a rushed, unneeded and expensive election.

Vote NO on SB92 and HB144.
