

**Opponent Testimony on SB 91
Government Oversight Committee
December 12, 2023**

Thank you for your time and the opportunity to present opponent testimony on SB 91. My name is Anna Perlmutter and I am writing to oppose the passage of Senate Bill 91. The public deserves to contribute to the decision-making process for public dollars. SB 91 is anti-democratic and only serves to hurt the most marginalized and vulnerable communities across our state. The amendment against funding priorities determined through a vote by residents serves to discourage public input and civic engagement from elected officials who represent us.
