

Ranking members of the Health Provider Services Committee, Thank you for allowing me to provide support for H.B 319 The Conscientious right to refuse Act. As a U.S Citizen, rights given by GOD, I strongly believe that each person should have the right to refuse a vaccine or any type of drug/treatment for themselves without facing discriminatory actions in any pandemic. I and many other Americans were banned from stores, funerals, hospitals, Doctors Appointments, Flights, Cruises, etc. for not being vaccinated for coronavirus. We had to fight our Employes, get Attorneys involved and threaten with Law Suits to get The City of Athens to back away from mandating the vaccine. Millions of other Ohioans were in the same boat with their employers. This should have NEVER happened. In a million years I never thought that I would be FORCED to take a "medication" to keep my Job. I retire in 6 1/2 years and I was ready to be TERMITATED by my employer because I felt so strongly against being FORCED to take something that I did not want to. As Ohioans we have the right of Conscious and Religious Freedom and this should NEVER happen again. So many people took this vaccine in order to provide for their families and now regret taking it because of the many side effects that are happening. Please with good concious pass this Bill and let Ohioans have their say on Medical Freedom. Thank You.
