

Chairman Cutrona, Vice Chair Gross, Ranking Member Somani, and members of the Health Provider Services Committee, thank you for allowing me to provide support testimony for HB 319; The Conscientious Right to Refuse Act. I was an employee at GOJO and in October they made the decision to force employees to be vaccinated with the COVID 19 "vaccine" as a response to President's unlawful edict that any suppliers to the federal government must have their employees vaccinated. Thankfully, GOJO offered religious accommodations exemptions from receiving the vaccine if they deemed the religious objection to be valid. By the grace of God, they granted one to me. I am thankful for that. However, I should have never been put in the position of having to choose between violating my faith and keep my job or lose my job because I didn't violate my faith. No one should ever have to do that. I think our founding Fathers would shutter in disbelief that their country allowed this clear violation of rights. I strongly urge the committee members to please vote yes on HB 319.
