I am against SB83. I consider it “The Higher Education Destruction Act - Bad for Students”. Bad for Higher Education. Bad for Ohio. The bill restricts DEI programs and training. I have been chair of the DEI art department committee for 7 years. I have a deep understanding of how important it is for students to experience a space of equity and trust. So many of our students are POC and queer, we must support them. It is unacceptable to ban race and gender based policies that support people. We need to have discussions and education about "controversial" topics, including climate change...

Please hear our voices. The world is in shambles and we need to keep education an open thriving place.
