

I'm against HB 12.

It is my opinion that HB 12 doubles services within the Governor's office.

This bill seeks to create an education and workforce devolvement department within the governor's office.

This legislation is a power grab.

This legislation will effect funds designated for education and will impact the education curriculum, therefore, I am against HB12

p.s. I will bring the legislation and the resolution against HB 12 to the meeting.
