

May 28, 2024

Dear House of Representatives:

We understand that HB 445 could change the lives of our children, parents, families and communities by changing the word may to shall. Another important outcome is that it could change our schools with improved attendance and behavior through moral and character building education.

Please consider the approval of HB 445 as an avenue to give parents the opportunity to decide if they want their child or children to participate in the Bible based character building program through LifeWise Academy.

Thank you for allowing me the opportunity to advocate for House Bill 445.

Sincerely,

Anita Creager
