

Good morning! I am Chloe Cole, an 18 year old detransitioner and I was robbed of my childhood. The perpetrators are part of a destructive ideology that has captured some of the smartest individuals in western culture, especially medical professionals and . This gender ideology attacked me when I was only 12 years old, the attacks have destroyed my life and wreaked havoc on my entire body and I am still feeling the damage today. I always will. This is because I am a detransitioner which means I used to be a transgender child, just like the trans kids that those protestors over there are trying to create. I was fast-tracked by medical butchers starting at 13 when I was given cross sex hormones and they took my breasts away from me at 15 years old. I don't know the status of my fertility, I don't know if I can carry to term, I don't know how many years this has taken off of my life. I have no idea because the medical community has failed me repeatedly at every turn. I was just a child. I didn't deserve any of this, but I have to live with constant back pain because of the puberty blockers, my voice will always be lower and weaker

than it should be, my stature will always be more masculine than it would've been, my reproductive system is atrophied all due to the testosterone abuse. My breasts will always be gone, and I have no idea how long the big wounds on my chest will be leaking random fluids. I wake up every morning and after I take a shower I have to tape up these wounds with bandages, so that this fluid doesn't stain my clothing. No child deserves any of this, no adult deserves this. Up until now, all of you have been complicit in the destruction of thousands of children like I was. Autistic, sexually traumatized children. Many of you are still complicit in the abuse. Today is your chance to turn this around. Ohio needs you, the world needs you. The grass is greener on the other side. The world will award you for your courage, but it will also punish you for your apathy. thank you.
