

Please reject H.B. 68 as it is not supportive towards LGBTQ+ youth. Trans youth deserve healthcare specific to their needs which includes gender-affirming healthcare. I hope you know how life-saving this is for so many youths. This is about taking care of humans. It is not for us to judge but rather to be an ally for all marginalized groups of people. Let's protect these kids by rejecting this bill. Let them know they are taken care of and not admonished for who they are.

Just like you, my job requires me to serve, respect, and value all regardless of my own personal beliefs. I hope you can come at this house bill objectively and not admonish these youths due to yours or any constituents own personal beliefs but rather protect those in need under law.

Thank you for rejecting HB 68.
