

Dear Committee,

My name is Tamara Roeder. I am a third-generation barber. I am really concerned with the committee's trying to change our license hours for being a barber. This is our state board regulation. If state board is not wanting to change these hours, then this is what barbers need to maintain our high standard. So why do franchise owners try to change what is really best for the public—take away hours and something will fail in this industry, and it won't be safe for the public. This will cause more lawsuits against the barber and beauty industry, therefor more money out of professionals' pockets in the long run. So please stop letting those that are sponsoring others win this. We have been fighting this for 7 years. We will always fight it.

Thanks for listening,

Tamara Roeder
