

The Honorable Ohio Senate,

My asthma has become increasingly worse as the smell wakes me up in the middle of the night coming through my closed windows. The stench comes in on my dogs fur as they use the doggy door as well. I go to the Fairborn Y by 0500 and the stench smacks me in the face as I walk out the door. Once the humidity arrives it will be unbearable and I will be a captive in my own home with the ac on high 24/7. We have lived in Rona Hills since 1985, my husband medically retired AF since 1987 and we stayed here but we have seen so many changes it is scary.
