

Opposition to SB 293
Senate Education Committee

Senate Education Committee members,

My name is Jeff Sparks. I strongly oppose SB 293. Public schools are no place for religious education. There are schools for that, for those wishing it to be. Public dollars fund public schools, and people do not want public schools to be a place for religious education.

Thank-you for your time. I urge you to oppose SB 293, and keep public schools public, using the separation of church and state, mandated in our very Constitution.

Sincerely,
Jeff Sparks
