

*To whom it may concern,*

*I oppose SB 293. No religious studies should be allowed during school hours. Let alone our children being carted off by un-vetted individuals who do not go through the proper channels to teach anything to anyone. As a Buddhist in this community, my children have been singled out and bullied in school for not carrying the same beliefs as their classmates. this is not what school is for. it is for education that is backed by science and history. not someone's beliefs. Get RTRI out of my schools.*

*Justin Wilson, concerned citizen*
