Dear Senate Education Committee,

I am a concerned citizen of the State of Ohio regarding SB 293. To allow religious education during public school hours, is a violation of our constitution. We need politicians to uphold our constitution instead of serving their own self interest or chosen religions. Our country's foundation is based on freedom, and that includes freedom from religion. We want to protect our children, protect our future, protect our nation and our public education system, and protect our constitution. Vote against SB293!!

**Concerned Citizen,
Amy Nachtrab**
