

OPPOSITION TESTIMONY TO HB 308

December 8, 2024

Dear Chair Reineke, Vice Chair McColley, Ranking Member Smith, and members of the Senate Energy and Public Utilities Committee,

I am writing in opposition to Ohio House Bill 308. Why am I in opposition to it?

1. Nuclear power is more expensive than renewable energy
2. It will not be an immediate source of energy, and we need solutions NOW
3. I would prefer not to have Ohioans, our children, wildlife and more radiated when a nuclear accident happens

It is maddening to think that our Ohio legislators are choosing the deadly risks of nuclear energy over, say, creating a renewables Manhattan type project. When will we ever learn—When will we ever learn.

For the sake of our children, please vote NO on HB 308.

Jenny Morgan
Westerville, Ohio
