

To whom it may concern:

My name is John Eaton. I am an 87 year old resident of Huber Heights, Ohio. I am writing you because I am concerned with the potential new law that could make my quality of life more difficult. I am speaking of my use of CBD & Delta products. For a few years now these products have enabled me to continue to use my hands to do the simple things in life, like enjoy a cup of coffee or eat with a fork or spoon. You see because of my age my hands shake uncontrollably and make the simplest tasks seem terribly difficult. I am also on a fixed income and the products I use are less than \$10. If the state government takes my ability to use these products away at a low price then my quality of life would suffer. Please don't take these items away from me.

Thank you,

John Eaton
