

Chairman Huffman, Vice Chair Johnson, and Members of the Senate Health Committee, thank you for hearing my support testimony for HB 73, The Dave & Angie Patient and Health Provider Protection Act.

I would like to add my support to House Bill 73 for the shield and protection of our citizenry. Our personal doctors should not be hindered on their choice of prescriptions and care for their patients. The medical industrial complex funded by the Federal Government and steered by massive pharmaceutical companies has gone far off the rails. Restricting or even prohibiting certain treatments based on so called guidelines. We need a bill that would protect the liberty of doctors, without risk of licensing boards, to make the best decisions along with the patients for their own healthcare. We definitely should never permit any doctor to be forced to relinquish any decision making over to the WHO, CDC or any other organization.

Now that COVID has run its course, and the evaluation of the medical industry's botched handling of said pandemic, it would behoove the legislators to establish solid health bills.

Sincerely,
Jeff Tauring, Pastor
