

Chairman Huffman, Vice Chair Johnson, and Members of the Senate Health Committee, thank you for hearing my support testimony for HB 73, The Dave & Angie Patient and Health Provider Protection Act”

The WHO does NOT have jurisdiction in the state of Ohio!

When we enter the hospital we expect that every nurse and Doctor has the BEST interest for the patient. That is not the case anymore, I have heard testimonies from Drs and nurses that it is what the "hospital protocol" or what the WHO is demanding that they follow. If anyone speaks out about these crimes against humanity the professionals are black listed, and cannot work for any hospital again. My current Dr this happened to. Every person is an individual with different needs. We cannot use a cookie cutter approach, or 'one size fits all" and call that "GOOD HEALTHCARE" To ensure we will have treatment choices and a preserved doctor-patient relationship in the future, I urge the committee to vote YES on HB 73.

Thanks for your time,
Brenda Kuhn
