Supporting the DD Workforce

Provider wages need to increase badly. I have 2 special needs sisters who cannot take care of themselves and it was impossible to find providers due to so many quitting because of the pay rate I finally decided to just become a provider so that my sisters can get the care that they deserve. I know that I am underpaid and I have to work a second job just to make sure all my bills are paid. I wage increase would help me in many ways I would be able to quit my second job and put full focus onto my healthcare career. I am an independent provider and I provider care to hpc.
