Testimony on HB 33
Supporting the DD Workforce

Please take the necessary steps to increase wages and salaries for the DD support professionals. I have a special needs son who constantly has a new person as a service coordinator. Change is very difficult for these individuals. They need stability to learn to trust the people so involved in their lives. As an aging parent I have concerns that when I am no longer alive or capable of caring for my son who will be that person in his life? Please change the laws that prohibit increasing the salary range for these individuals so important to the DD community
