

Senators of Ohio,

Thank you for hearing your constituents' concerns and recognizing that section 5501.60 of the Revised Code is unacceptable. The imposed interchange would negatively impact our community's safety and wellbeing. Please pass S.B. 155 and remove the threat of setting a dangerous precedent in regards to constructing interstate interchanges. Brunswick will not rest until this unwelcomed burden has been dealt with.

Thank you,
Thomas Keppler Jr.
