

Hello.

Thank you for the opportunity to use my voice to add to this discussion regarding kratom. I am 56 and am a mother of two children, both adults-one attending OU and the other a successful businessman. Both I am incredibly proud of! I take great care of my well-being and this includes my decision to avoid alcohol and only use natural remedies, including natural, unadulterated kratom. I support banning anything NOT in its natural form. Please keep natural kratom legal in Ohio.

Respectfully,

Teresa Bolton
