

My name is Anne Yager and I am a resident of Perrysburg, Ohio. I am a retired landscape architect, a mother, grandmother, and concerned citizen. It has just come to my attention that HB 188 would appropriate millions of dollars of our Ohio taxes to an Ohio-Israel partnership and I am horrified.

Ohio is struggling to feed our hungry, fund our schools and libraries and yet this partnership has been proposed under cover of darkness. How can we turn our backs on our own citizens and send millions to an overseas government? Where is the accountability? Who will oversee this boondoggle? There is no established transparency or bench marking proposed in this legislation. This is an unnecessary redirection of Ohio money.

Please see your way to keep Ohio money here to build up our communities and citizens and defeat this misguided idea.

Thank you for your attention to this matter.
