Dear Representative Fowler-Arthur:

I am writing to express that I am in favor of the legislation that is being introduced to address the waiver days for the Ashtabula Area City Schools. These days were used in response to the emergency at the High School where the roof collapsed in the wake of the large amounts of snow, as well as the state of emergency called by the Governor of Ohio. I believe that the seniors should not be penalized and allowed to graduate on time as this was out of their control as well as out of control of the entire district.

You would be amazed (or not, since AACS is an amazing district) at how the district came together to get the student body back to school in person as soon as they could. There have been many adjustments made and the district continues to work to provide an in-person, excellent education to their students.

In closing I would like to thank you for introducing the legislation and for voting in favor of the legislation.

Please let me know if you require any further information.

Sincerely,

A handwritten signature in black ink, appearing to read "Kiersten A. Shevchik, MSPT". The signature is fluid and cursive, with the initials "MSPT" written in a smaller, more distinct font at the end.

Kiersten A Shevchik, MSPT
