

Hello,

My name is William Bailey and I am a resident of Loveland, OH. Our district has been dramatically affected by changes in state funding to the point that our class sizes have grown, education options have been reduced and we no longer have high school busing.

I am writing regarding the potential cut in school funding being proposed. I am significantly opposed to this proposal!

I have been a resident of this state for most of my life and grew up in a low income area and benefited from public schools greatly. As a result of my quality education opportunities in our public school system, I went on to serve in the military, earn a Bachelor's degree at the University of Cincinnati, and completed my MBA at Xavier University.

I am asking you to fully implement the fair school funding plan and update the inputs for the Loveland school district and similar school districts. In addition, am in strong favor of increasing the state share from 10% to 20%.

I am in favor of a government that takes care of its basic needs and priorities, education is at the top of my list. My tax dollars go to the state every year and my voting record is consistent.

Please reply to me this week to confirm acceptance of this email.

Regards,

Will Bailey
