

Hello, I am a mother who is in FULL support of HB 155 that representatives Lear and Williams are proposing to the Ohio House of Representatives.

I am a mother of a child who had to be taken out of Mentor public schools, for clear indoctrination instead of education. He didn't even make it all the way through kindergarten before I had to withdrawal him from public schools!

He now goes to private school.

And this is why:

My 5 year old child was exposed to pornographic imagery, and he was being taught that skin color and sexual orientation matter more than CONTENT OF CHARACTER. He was taught boys can go into the girl's bathrooms, and if he wanted to be a girl, all he had to do was say he's a girl.

He was taught about RACISM... by Whites and Whites ONLY. I DO NOT TEACH RACISM OR SEXUALITY IN MY HOME. I DO NOT TEACH MY CHILD TRANSGENDER NONSENSE.

DEI, known as diversity, equity, and inclusion actually is DIVISION, INEQUALITY, AND EXCLUSION. And it doesn't belong anywhere near our schools. GET HB155 PASSED NOW.

More parents like me will keep taking their children out of public schools to seek educations without MARXIST AGENDAS.

If you want me to testify to this, I will.
