

Sponsor testimony to read the U S Declaration of Independence

I believe reading the U.S. Declaration of Independence for Ohio Students is a extremely valuable asset in showing and giving the Students in Ohio the reasons behind forming a Independent Country from the clutches of a tyrannical British Monarchy. The ideals written by the Founding Fathers of our country elected to represent the birthing of a Nation in the Continental Congress setting the course of a Free and Sovereign Nation unlike any other in the free world.

If we are to maintain and move forward with our Constitutional Republic we need to revisit the reasons this country was formed and to uphold the ideals written on the founding principals and realize the reasons we are given the freedom sought under the context of an unchanging document.

Further, not only for those born here on this soil and for those who would seek a better life in this Republic it is note worthy for those who seek life here to understand and affirm the reasons we exist and to forward those values for the freedom given by the Declaration.
