

Testimony of Brenda Mitchell in support of HJR2

House Government Oversight Committee:

Chair Hall, Vice Chair Ferguson, Ranking Member Humphrey, and members of the Committee -

My name is Brenda Mitchell. I live Bellefontaine, Ohio, House District #85.

I know you have heard this many times, but I am very concerned for the future of my grandchildren. I am a school bus driver and I see, on a daily basis, the deterioration of the family and the direct correlation to the behavior of the children. You couldn't pay me to be a teacher!

We need to get back to the basics. We need people to be in church on Sundays, working a 40 hour a week job, schools that have the ability to discipline children, no abortions, parents that are not divorced. Parents that don't think their children could do no wrong, parents that raise their children with a good moral compass. And bring back the American Dream!

HJR2 offers We The People a voice that lets you know we need change. We want and need the ability to give voice to our concerns by calling a convention and sending someone that has our concerns and best interests at the forefront of their service.

Term Limits - for both elected and unelected bureaucrats would allow new people to be voted in with fresh new ideas and a voice to local and state concerns. It would give more people the ability to represent their districts. It would also aid in preventing Legislators from being pulled into corruption.

Balanced Budget - This is self explanatory. You can't run your home like this without having issues.

Reducing the size and scope of the Federal Government - Again, self explanatory. The States need the ability to run their state the way they see fit. The people of the state deserve to keep their money close and have the ability to make decisions that affect them.

I urge you to pass HJR2 and pass it on for a floor vote. Give voice to the over 117,000 Ohioans that want their voices heard.

Thank you,
Brenda Mitchell
