### **Proponent Testimony of Judith Thompson for HJR 2**

I am a retired school paraprofessional residing in Hocking county who still loves to return to school and sub occasionally.

We as Americans desperately need term limits on our Congressmen and women. Look at what is happening today. Members are entrenched in their positions, get rich with influence peddling, and do not want to leave because of all the perks they receive. This was not the intent of our Founding Fathers. The job was meant to be a service to our fellow man, not serving our own self interests. Please support HJR2 and pass it to the full House for a vote. It is time the American people get a Congress working for us.

Thank you all for your service to Ohio.

Judith K. Thompson
