

Testimony of Kay Clymer in support of HJR 2.

“Chair Hall, Vice Chair Ferguson, Ranking Member Humphrey, and members of the Committee”

I am a COS district captain for House District 97. Twelve years ago, Zanesville Patriots had a special meeting with Dr. Michael Farris and Mark Meckler. They were outstanding explaining their knowledge and our need of the 4th Amendment of our Founding Fathers’ Constitution.

I knew what I needed to do, I had to continue to learn, share, and make a habit of speaking up about those elected officials who were to be working for us. I needed to support candidates that were for our great Republic.

I was disgusted with a members’ lack of understanding, therefore their wasteful responses to issues. I would attend legislative meetings and would watch for indicators that our elected members were hearing the presentations. I would think what mindless questions some asked and/or responses . . . again. Did they not hear the same question asked and answered earlier? Did they come to just occupy a seat? Hopefully, one member would give a correct answer as a response!

The presenters were well prepared and their information could, would, should correct faulty thinking. We would visit the elected member for a positive yes. Many members were cordial but their responses were, “I need more information before making a decision.”

It is time for term limits. It’s time for the “musical chairs” to stop! It is time for many conservative citizens to listen to the wonderful COS “shorts”!

An Article V Convention of States gives us a return to federalism and state and local self-governance as our Founders intended in the Constitution.

As a committee, please support HJR 2 and pass it on to the House for a full vote.

Thanks for your service to Ohio and providing me the opportunity to submit my testimony.
