

Chairman Schmidt, Vice Chair Deeter, Ranking Member Somani, and Members of the House Health Committee, thank you for hearing my support testimony for HB 12 The Jeff Dave & Angie Patient Right to Try Act.

The Ohio Freedom Fighters, a group of concerned citizens, stand with Jennifer Gross, D.J. Swearingen, and patients and health providers all across the state that support this legislation that removes obstruction from over reaching government licensing boards and enables consenting patients and their treating doctors to access the FDA approved and legal treatments that could save their life.

HB12 ensures access to treatment options and restores the doctor-patient relationship. By focusing on informed consent and patient autonomy, this bill empowers individuals to make decisions about their healthcare, potentially leading to improved outcomes and quality of life, which we are all constitutionally given as Ohioans.

Please vote yes on HB 12.
