

April 28, 2025

Chairman Schmidt, Vice Chair Deeter, Ranking Member Somani, and Members of the House Health Committee,

Thank you for hearing my support testimony for HB12, The Jeff, Dave, and Angie Patient Right to Try Act.

On behalf of Stand for Health Freedom, a national nonprofit committed to empowering individuals to advance informed consent and free speech through effective legislative action, I am writing to express our strong support for HB12. Please protect a health care provider's right to medical free speech so that patients can have informed consent and access to lifesaving drugs that a doctor has prescribed and the patient has consented to.

Please restore the doctor-patient relationship by voting YES on HB12.

In gratitude,

Leah Wilson

Sincerely,
