

My children were removed for hear say a neighbor retaliated against me and called 241 kids only because she knew about me having a prior 241 kids case which was closed within the last 30 days. At the time of the incident were the children were removed due to the false allegations I was residing in the battered womens shelter due to the harassment from my neighbor Paulette . Melissa Taylor a caseworer at Hamilton County JFS coerced my sister alexis Anderson and My children's grandmother Erica Murray by making false allegations alledging she had a court order to bring my children to 800 Broadway and they were removed from my care without the option of a safety plan which was never presented to me at the time I turned over my children due to the threats of having an amber alert and kidnapping charges if i refused. No one ever came to inspect my home to see if it was suitable for my children after requesting to see the report and to be informed on the allegations presented against myself.They later falsely alleged that I didn't have formula for my daughter which was made aware to me by My children's grandmother Erika Murray.My children were never neglected or abused they had everything they needed, the house was safe, and clean. I am able to provide the neccessities and other immediate needs and have a strong support system which includes my mother Lori as well as my children's grand parents who have kinship of my two oldest children. My mother Lori did attempt to seek kinship over Genesis however was denied though she is already a previously approved to oversee the visits of Nova my neice who is has since been returned to my sister's home as of August of this year. I feel as though I was retaliated against because my case had been closed 30 days after fighting for reunification for almost two years prior. I want to specify that this case has been open for nine months without any facts supporting the allegations against myself nor to support the reason for concerns and grounds for removal.
