

3/17/2026

To the Misguided,

I am not certain why this administration is so hell-bent on targeting the LGBTQ+ community. Perhaps you should focus on how the Trump administration is violating HB 68 and denying care to families that were grandfathered to receive gender-affirming care in Ohio, via backdoor Medicaid control. Maybe focus on the fact that the Department of Justice raided the Cincinnati Children's Hospital Medical Center on January 11th and violated the HIPAA rights of those grandfathered. I have receipts and sufficient documentation to provide to anyone interested in launching an investigation into those actions. These actions should outrage you, and you should be focused on investigating actual rights violations and not perpetuating false accusations against drag queens and transgender individuals. claims. Please stop playing into their hateful hands and stop using your constituents as pawns in their game. Do the right thing and investigate what happened at the CCHMC center on January 11th, and refuse to initiate any further trauma on the LGBTQ+ community in the state of Ohio.

I'd be more than willing to share all relevant documentation, including legal filings and reports, about the DOJ raid on our Cincinnati clinic. Reach out anytime, and I will share all my evidence with you.

In dissent,

Hollie Miller
